

§ 34.13 FEES FOR COPIES.

(A) The public agency may prescribe a reasonable fee for making copies of nonexempt public records requested for use for noncommercial purposes which shall not exceed the actual cost of reproduction, including the costs of the media and any mechanical processing cost incurred by the public agency, but not including the cost of staff required. If a public agency is asked to produce a record in a nonstandardized format, or to tailor the format to meet the request of an individual or a group, the public agency may at its discretion provide the requested format and recover staff costs as well as any actual costs incurred.

(B) (1) Unless an enactment of the General Assembly prohibits the disclosure of public records to persons who intend to use them for commercial purposes, if copies of nonexempt public records are requested for commercial purposes, the public agency may establish a reasonable fee.

(2) The public agency from which copies of nonexempt public records are requested for a commercial purpose may require a certified statement from the requestor stating the commercial purpose for which they shall be used, and may require the requestor to enter into a contract with the agency. The contract shall permit use of the public records for the stated commercial purpose for a specified fee.

(3) The fee provided for in division (B)(1) of this section may be based on one or both of the following:

(a) Cost to the public agency of media, mechanical processing, and staff required to produce a copy of the public record or records;

(b) Cost to the public agency of the creation, purchase, or other acquisition of the public records.
