Minutes of the Board of Trustees

The Board met at 7:30 PM at the McGuffey Insurance Office on September 8, 1965 with one member, Trustee Joe Lowe absent. The only item of official business was a discussion of the money now available through Federal grants for the construction of sewage systems. All members were in agreement for Mr. Bevarly to contact the present engineers who are working on the water system and Charles English, the present city attorney to see if this survey could be worked in conjunction with the water system. This is not to cost more than \$100 additional. Chairman Bevarly will make these contacts and report at the next meeting.

There being no further business, the Board adjourned until the next regularly scheduled meeting.

Gertie Bybee, Clerk

Carroll S. Bevarly, Mayor
